

TASKS TO PREPARE FOR THE SPANISH MEETING

TASK 1: CONTINENT CHART (SEE ANNEX 1)

This activity is aimed to the students so that they can have a more general idea about a particular continent. We recommend you to follow the following steps:

- Every country must prepare the information about their given continent using this chart and preparing a Power Point to show during the Spanish week to the rest of the participants.
- The Power Point shouldn't be longer than *10 slides* and *no more than 6 words* should be written in every slide.
- One of the songs chosen in the chart must sound during this task exhibition.
- We will use all this information during the week to work in a cooperative way and as a final project.

TAST 2: MIGRATION THROUGH THE CONTINENTS

This activity is aimed to know more about the historical migration movements.

You have to analyse the different emigration flows the different continents have undergone along the last centuries. That is, just mention the places where people from “your continent” have emigrate along the centuries. This information will be reflected in a world map that can help us to understand that migration is common to the entire world.

TASK 3. SITUATION OF IMIGRATION IN YOUR COUNTRIES

Through this task, you will study closely the situation of immigration in our native countries. Please, read the Final Refugee's Report you can

find in the shared folder. Prepare a report where the situation of immigration, measures taken for their integration and degree of acceptance in your country must be reflected. Prepare 3 slides reflecting in a summarized way this information.

ANNEX 1. FACT FILE ABOUT CONTINENTS

ITEM	EUROPE	ASIA	AFRICA	OCEANIA	AMERICA
1. GENERAL CULTURAL CUSTOMS		Religious traditions			
2. TYPICAL FOOD		sushi Horse Meat Khorkhog
